User Experience Master's degree

École Supérieure du Digital

Master Pro in Innovative Projects

Polytech'Nice - Nice Sophia Antipolis

WORK EXPERIENCES

Senior Product Designer 2024 - now

Mobilize Financial Services

- Designed and delivered financing journeys for automotive e-commerce platforms in close collaboration with product managers and engineers.
- Led discovery activities including user interviews, usability testing, benchmarking, and data analysis to identify UX improvements and support experimentation.
- Conducted WCAG-aligned accessibility audits, integrated AI-assisted workflows to accelerate research and prototyping, and contributed to the evolution of the design system while mentoring junior designers.

UI/UX Designer 2022 - 2024

Renault Digital

- Improved UX workflows for connected mobility products through audits, guerrilla testing, and competitive benchmarking.
- Delivered prototypes and detailed design specifications in close collaboration with engineering teams during product development.
- Contributed to the evolution and governance of the design system used across multiple digital services.

Product Designer 2020 - 2022

Thales Ecom

- Designed user interfaces for secure communication platforms used in high-trust and defense-related environments.
- Built and evolved the design system to improve scalability, consistency, and cross-team collaboration.
- Conducted usability testing and facilitated co-creation workshops with product managers and engineers to align requirements with user needs.

Digital Manager / Web Designer 2017 - 2020

Prunay Group

- Led visual identity redesign and website development across a multi-brand group.
- Designed and maintained digital experiences aligned with brand and business needs.
- Supported cross-brand communication through web design, visual assets, and digital production.
